

GREENANT ELECTRICAL SWEEPER

SP-GA48V

Hand Towed Type 100% Electrical Road Sweeping Machine

1. The whole machine adopts pure electric design, which is green, environmental friendly, flexible and convenient. It is suitable for garbage collection in parks, squares, schools, docks, scenic spots, residential properties and other areas. It uses vacuum negative pressure to collect garbage and can quickly suck in floating garbage such as bottles, cans, broken glass, leaves, and paper. It is especially suitable for picking up garbage piled up in dead corners on the roadside.

2. The drum filter is easy to disassemble and has a larger filtering area. Directly connect to the 240L standard garbage bin for convenient garbage collection and dumping. Adopting a hand pull multifunctional handle and a simple operating system, making it easier for users to operate.

This device is powered by a 48V maintenance free battery, which is energy-saving and environmental friendly, and has a long continuous use time.

The front and rear equipped with inflatable tires, ensuring smooth driving and easy disassembly of all mechanical components.

Small space occupation, low noise, small turning radius, and large cleaning freedom. High power vacuum motor with stable performance and strong suction force.

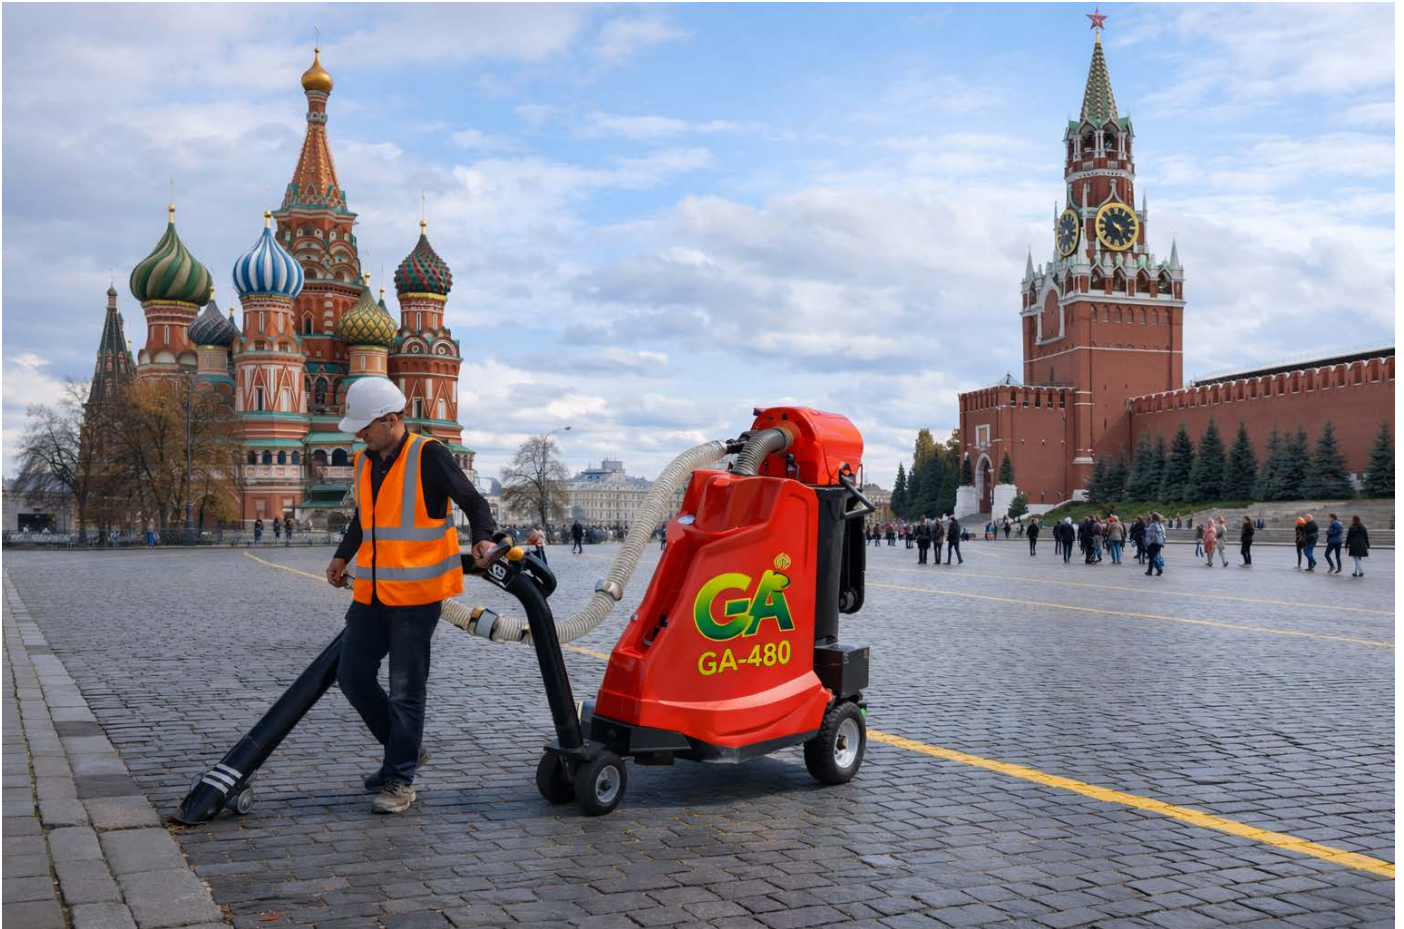

GREENANT ELECTRICAL SWEEPER

Parameters

Item	Unit	Parameter
Sucking Hose Diameter	mm	110
Working Radius	mm	3200
Wheel Base	mm	1300
Wheel Tread	mm	750
Dmension(L*W*H)	mm	2450*950*1800
Weight	kg	425
Water Tank	L	60
Dust Bin	L	240
Filter Surface	m ²	9
Walking Speed	km/h	0-6
Turning Radius	mm	1450
Walking Motor	kw	2.2
Vacuum Motor	kw	1.5
Working Time	h	4-6
Water Pump	Mpa	0.9
Pump Flow Rate	L/Min	19
Power	v/ah	48/83
